

Preface

Southern University's Fact Book is an annual publication that provides a ready source of information to answer frequently asked questions about the University and its operations. It contains a broad spectrum of information about the past and present, and its primary purposes are to promote organizational understanding and provide a basis for decision making. Some of the information presented in this edition is taken from administrative reports produced by various University offices. The staff of the Office of Planning, Assessment, and Institutional Research (PAIR) would like to thank those offices for their valuable contributions. In an on-going effort to provide timely information, PAIR will continue to refine this document each year, and welcomes your comments and suggestions for improvement.

Mission Statement

Southern University and A&M College at Baton Rouge is a component of the public education system of the State of Louisiana, providing comprehensive programs of study ranging from associate degrees to doctoral and professional degrees. The University's admission policy is grounded in the belief that opportunity and quality can co-exist in a diverse educational environment. The University is committed to a broad program of research and creative work to stimulate faculty and students in a quest for knowledge and to aid society in resolving its scientific, technical, socioeconomic and cultural problems. Southern University and A&M College at Baton Rouge renders services to the community through urban and rural programs. Adhering to the spirit of its 1890 Land Grant function, the University's extension programs have assumed a more prominent posture throughout the State of Louisiana, nationally and internationally.

Strategic Plan Goals

A. Student Matriculation and Retention

Goal A-1 - Recruitment

Southern University will develop and implement programs to achieve optimum enrollment numbers and diverse student demographics reflective of the changing role of the institution.

Goal A-2 – Retention and Completion

Southern University will increase student retention and graduation by continuing to provide effective and efficient educational support services that will assist students with the accomplishment of their necessary educational and career goals.

Goal A-3 – Student Development

Southern University is committed to maintaining and enhancing services to meet the total needs required for the full development of the student.

B. Resource Maintenance and Development

Goal B-1 – Human Resources

Southern University will provide a comprehensive Human Resources program.

Goal B-2 – Financial Resources

Southern University will strive to increase revenues from state appropriations, auxiliary enterprises, grants and contracts, tuition and fees, and other external fund-raising activities.

Goal B-3 - Facilities

Southern University will provide for the orderly development, maintenance, and effective utilization of its physical facilities.

C. Efficiency, Effectiveness, and Accountability

Goal C-1 – Technology Resources

Southern University will place strong emphasis on providing and utilizing leading-edge technology and services for instruction, research and administrative functions to enhance the effectiveness of all forms of learning and communications, as well as the effectiveness of management.

Goal C-2 – Management Efficiency, Effectiveness, and Accountability

Southern University will improve the efficiency and effectiveness of its administrative functions.

Goal C-3 – External Relations

Southern University will strengthen its image and relationships among University stakeholders.

Strategic Plan Goals

D. Educational Programs

Goal D-1 – Quality Programs

Southern University will offer degree programs of high quality.

Goal D-2 – Instruction

Southern University will create an environment that encourages student engagement in the learning process.

Goal D-3 - Faculty

Southern University will maintain a highly competent faculty.

E. Research and Public Service

Goal E-1 – Research, Scholarly, and Creative Pursuits

Southern University will continue to improve and enhance faculty and student scholarship, research, and other creative pursuits.

Goal E-2 – Intellectual Property, Technology Transfer, and Economic Development

Southern University will develop an environment conducive to the development of intellectual property, technology transfer, and economic development.

Goal E-3 – Public Service

Public Service - Southern University at Baton Rouge will continue to provide a leadership role in public service activities in business, civic, cultural, and other communities.

History of Southern University

Southern University and A&M College had its beginning in New Orleans, Louisiana, in 1880 when a group of Black politicians, led by former U.S. Senator P.B.S. Pinchback of New Orleans; a distinguished legislator, T.T. Allain of Iberville; and Henry Demas of St. John Parish petitioned the State Constitutional Convention to establish a school of higher learning for “colored” people. As a result of this petition, Southern University came into existence on April 10, 1880, by the passage of ACT 87 of the Louisiana General Assembly. This was the date on which funds were appropriated by the State of Louisiana for the establishment of an institution of higher learning for African Americans.

Act 87 provided for the establishment of a university for the education of persons of color. The Act further provided that the Board of Trustees should “establish a faculty of arts and letters, which shall be competent to instruct in every branch of liberal education; and, under rules of and in concurrence with the Board of Trustees, to graduate students and grant degrees pertaining to arts and letters on persons competent and deserving the same.” Under the provisions of Act 87 of the 1880 Louisiana General Assembly, Southern University first opened on March 7, 1881, in New Orleans, Louisiana, on Calliope Street. It remained there until 1883, when it was reorganized. It was later moved into a brick structure on Magazine and Soniat Street Square.

During this time, the University offered academic studies beginning with the primary grades and extending through high school, with some college-level work being offered. It also offered training in the job-oriented disciplines of agriculture, home economics, printing, carpentry, and tinsmithing. The academic program was classical in nature, offering such liberal arts subjects as English, Latin, Greek, French, algebra, geometry, chemistry, physics, and music. The curriculum was divided into six departments: College, Normal, High School, Agriculture, Industrial Education, and Music.

A significant development in the history of the University was the passage of the Second Morrill Act of 1890, which provided for the establishment of an agricultural and mechanical department for people of color, with support from both the state and federal governments. The passage of the Second Morrill Act led to the reorganization of the University as a land-grant institution, with separate divisions for agriculture and mechanical arts. These departments were responsible for teaching agricultural and industrial courses, for the development of scientific and agricultural technologies, and for subsequent transfer of technology to rural inhabitants, primarily agriculturists, in the development of more economical ways of increasing the productivity of crops and the marketing and utilization of products.

The University remained in New Orleans until 1912, when Legislative Act 188 authorized its change of location from New Orleans to Baton Rouge. The University was reopened on the new site on March 9, 1914, under the presidency of Dr. J.S. Clark.

In Baton Rouge, the University offered study from sixth grade through two years of college. The four areas of the college’s program were normal courses, home economics for women, vocational agriculture for men, and training for parish supervisors and agents. The Department of Industrial Arts offered, in addition to home economics and agriculture, such courses as carpentry, engineering, brickmasonry, blacksmithing, printing, shoemaking, and harness making. These courses were open to high school and college students. The academic dimension was classical in nature, offering such liberal arts subjects as English, Greek, French, algebra, geometry, chemistry, music, and physics. Latin was a requirement.

In the 1920s the University’s baccalaureate offerings were extended to four years. The University was developed into two colleges - the College of Arts and Sciences and the College of Education. The College of Education trained students to be teachers in academic subjects and industrial courses, including agriculture and home economics. The State School for the Blind and Deaf for Blacks, which was also under the supervision of Southern University, was separated into two schools - the School for the Blind and the School for Deaf. In 1938, Dr. J.S. Clark was succeeded by his son, Dr. Felton G. Clark.

History of Southern University

In the early 1940s, the University's curriculum was divided into eight divisions: Agriculture, Liberal Arts, Business Education, Education, Health and Physical Education, Home Economics, Mechanical Arts, and Music. The Law School was established in 1947.

The divisional structure of the University remained in existence until the middle 1950s, when Business and Engineering were added. It was reorganized into the Colleges of Agriculture, Business Education, Engineering, and Liberal Arts and Sciences. In 1957, the Graduate School was established.

In the 1960s, the structure was again reorganized. The College of Arts and Sciences was divided to create the College of Arts and Humanities and the College of Sciences. The Junior Division was established at that time. Dr. Felton G. Clark retired and was succeeded by Dr. G. Leon Netterville as president.

During the 1970s, the Southern University System, with its own management Board of Supervisors, was established. The System consists of Southern University and Agricultural and Mechanical College at Baton Rouge, Southern University Law Center, Southern University at New Orleans, Southern University at Shreveport, and the Agricultural Extension Program.

Since the 1980s, the Southern University System has been headed by a System president. Each campus has a chancellor who is designated as the chief executive officer of the campus. The System has had four presidents: Dr. Jesse N. Stone, Jr.; Dr. Joffre T. Whisenton; Dr. Dolores R. Spikes, and Dr. Leon R. Tarver II. Since the establishment of the University System, the Baton Rouge campus has had six chancellors: Dr. Roosevelt Steptoe, Dr. James Prestage, Dr. Wesley C. McClure, Dr. Dolores R. Spikes, Dr. Marvin L. Yates, and Dr. Edward R. Jackson, who has been the chancellor since December 1997.

In the decade of the 1980s, higher education in the state of Louisiana operated under a Consent Decree, a court order handed down by federal judges as an out-of-court settlement between the State and the U.S. Department of Justice over the issue of desegregation. Under the Consent Decree, Southern University was promised enhancement funds to upgrade physical resources, construct new facilities, and establish new academic programs. During this period, thirteen major facilities were constructed, including the Nursing School Building, the Physical Plant Building, the Band Building, the Central Cooling and Heating Unit, the John B. Cade Library, J.S. Clark Administration Building, Mayberry Dining Hall, the Health Research Wing, Performing Arts Building, and several units for agricultural research.

Academic programs were established to offer a bachelor's degree program in nursing. Master's degree programs were offered in computer science, environmental chemistry, professional accounting, public administration, and rehabilitation counseling; doctoral programs were offered in special education (PhD and EdD). During this period, three schools were established: the School of Accountancy, the School of Nursing, and the School of Public Policy and Urban Affairs. The Department of Architecture was separated from the College of Engineering and elevated to the status of a school. The Law School was redesignated a Law Center, with a chancellor who reported directly to the System's president. All schools and centers were freestanding units except for the School of Accountancy, which remained as a unit in the College of Business.

In the decade of the 1990s, the University experienced a period of growth and expansion in academic and administrative units. After prolonged litigation, the U.S. Department of Justice, in November 1994, reached a ten-year settlement agreement with the State of Louisiana and other state public institutions for the desegregation of higher education. Under this agreement, the State would establish an open-admissions community college in Baton Rouge, while the University would adopt selective admissions policies. Furthermore, the agreement allows for the expansion of graduate program offerings, particularly at the doctoral level. The University would increase enrollment of "other race" students and employment of "other race" faculty, staff, and administrators. In addition, the agreement allows for the construction and renovation of facilities to accommodate new programs and to house existing ones.

History of Southern University

Since the settlement agreement was signed, several programs have been added, including the bachelor's degree program in criminal justice, the master's programs in physics and in urban forestry, and the doctoral degree programs in public policy and in science and mathematics education. Other programs that will be added in the remaining years of the agreement include doctoral degree programs in nursing, environmental toxicology, and material science. Master's degree programs will be added in engineering and business administration.

The decade of the 1990s witnessed a significant shift in the philosophy of management. More emphasis was placed on the quality of academic programs rather than on the number of programs offered. In 1993-1994 and in 1995-1996, the University carried out comprehensive reviews of all academic programs. Although the reviews were mandated by the Board of Regents, the University went beyond the mandate to consolidate, merge, and terminate programs that no longer served the state's constituents. As a result of these reviews, the University was able to reduce the number of program offerings from 130 in 1993 to only 70 in 1999.

In addition, the University invested heavily in the accreditation of programs by specialized agencies. Several programs received accreditation for the first time, including business, computer science, mass communications, public administration, and rehabilitation counseling. Other programs received reaffirmation of accreditation. In the meantime, the athletics program was certified by the NCAA for the first time in 1996. Currently, the University enjoys a high accreditation rate of 83 percent for all programs eligible for accreditation.

The physical facilities added or renovated in the 1990s include the Social Science Building (Higgins Hall), the Special Education Building (Blanks Hall), the Smith-Brown Student Union Building, the Men's Gymnasium (Seymour Hall), the Home Management House (Office of Publications and Electronic Media), the Civil and Mechanical Engineering Building, the Center for Small Farm Research, the Greenhouse, the Pinkie Thrift Hall, the Archives, the Naval ROTC Building, and T.H. Harris Hall (a multipurpose classroom and administrative office facility). Several dormitories and a road that will eventually loop around the campus for improving the flow of traffic were also constructed.

Since 1990, fifteen projects have been completed at a cost of approximately \$30 million. Capital outlays for 25 projects under construction or in the planning stage total \$93 million. Under the Master Plan for Facilities (currently under review), the University can expect to continue to grow, expand its physical resources, and establish new programs well into the next century.

Physical Facilities

Southern University at Baton Rouge has one of the most beautiful campuses in the country. Lake Kernan flows through the center of the campus and the Mississippi River forms its western boundary. New buildings with more than 200,000 square feet of floor area have been constructed in the last 30 years. These include the following:

- ◆ The Smith-Brown Memorial Student Union is known as the campus “Living Room” and serves as a major center for extracurricular activities. The recently renovated Union features a food court with more than eight popular food vendors; barber and beauty shops; television rooms; 12 lane bowling alley; game room for billiards; video games; an art gallery; a browsing room; a ballroom; meeting and conference rooms; and a branch of the United States Post Office.
- ◆ The F.G. Clark Activity Center has facilities for theater, athletic events, conferences, convocations, and recreational activities. The building houses the Athletic Department, the Livestock and Poultry Show Offices, and the Office of Student Financial Aid.
- ◆ The J.S. Clark Administration Building houses the Southern University Board of Supervisors, the Southern University System Offices, the Chancellor of the Baton Rouge Campus, the Vice Chancellor for Academic Affairs, the Vice Chancellor for Finance and Administration, and other administrative offices.
- ◆ E.N. Mayberry Dining Hall contains the Magnolia Room, the Cypress Room, and the Oak Room. Dunn Cafeteria is located in the Freshman Complex.
- ◆ The John B. Cade Library’s collection totals more than one million volumes. Special Collections include the Camille Shade African American Collection, archives, music art, and architecture. The Library is a partial depository for Louisiana and U.S. Government documents.
- ◆ The Consent Degree 1981-1993 provided funds for Capital Outlay Projects. These projects included the renovations of the Auditorium/Gym, Physical Plant, Central Stores, and Motor Pool, Bradford and Grandison dormitories, J.S. Clark Administration Annex, Seymour Hall, and the Home Management House. Three new buildings were erected, the School Nursing, A.G. Blanks Hall (Education Building.) and Higgins Hall (Social Science Building). The New Dorms Project Phase I, the demolition of old unsafe buildings, and the implementation of Landscape Master Plan was also covered with funds provided. The cost of these projects was \$39,210,207 and all have been completed.
- ◆ The Desegregation Settlement Agreement 1994-2005 provided funds for Capital Outlay Projects. These projects included the renovations of the Home Economics Building, T.H. Harris Hall, Archives Building, Industrial Arts/AROTC, and Naval ROTC Buildings. Three new projects were completed, Greenhouses, Center for Small Farms Research, and the Civil/Mechanical Engineering Building was erected. Phase II for new Dorms was also completed. The cost of the projects was \$32,768,803. Phase III for New Dorms is under construction with an estimated cost of \$11,055,000 and should be completed in 2006.

Definition of Number References

100 - Classrooms , classroom service, etc.

200 - Class labs, class lab service, etc.

300 - Office Facilities - office services, conference room, conference room service, etc.

400 - Study Facilities - library, reading/study room, processing room, study service, etc.

500 - Special Use Facilities - armory and service, athletic/physical education, audiovisual, radio/tv service, etc.

600 - General Use Facilities - assembly and service, exhibition and service, food facilities, lounge service, etc.

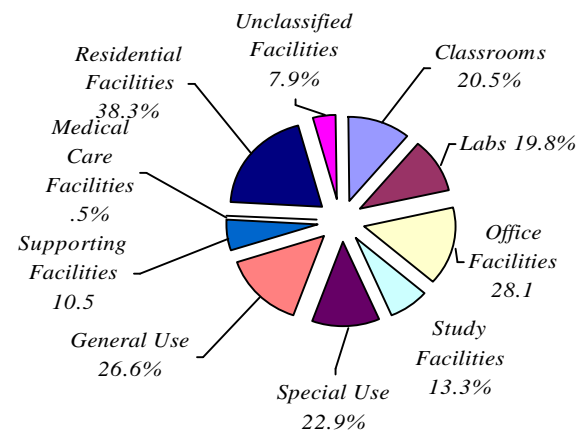

700 - Supporting Facilities - data processing/computer and services, storage and service, shop and service, etc.

800 - Medical Care Facilities - health care facilities, service labs, supplies, public waiting, etc.

900 - Residential Facilities - sleep/study, apartment and service, house, etc.

000 - Unclassified Facilities - inactive area, unfinished area

Note 1:

SCHs = Student Credit Hours of Productivity

FTE Students = Undergraduate (U) = SCHs divided by 15 credit hours, and Graduate (G) = SCHs divided by 12 credit hours

FTE Faculty = Undergraduate (U) = Credit hours divided by 12, and Graduate (G) = Credit hours divided by 9

Student Faculty Ratio = FTE students divided by FTE faculty for the respective level (U or G)

¹ Nursing PhD hours were previously included in the graduate hours

² Criminal Justice (BS), Law Enforcement (AA) transferred to Nelson Mandela School of Public Policy and Urban Affairs, and Criminal Justice (MS) Added, August 2004
