2013 Summer Youth Programs

NOTE: All SUBR Summer Program dates are in compliance with the Summer 2013 Academic Calendar. Academic Calendar is subject to change. Program information is subject to change. Please contact program coordinators.
### Duration:
Four Weeks: June 10 – June 29, 2013

### Description:
This program is designed to provide students with a greater awareness of the exiting, challenging, and rewarding career opportunities that exists with a degree in agricultural and environmental sciences or family and consumer sciences. Participants spend the three weeks being oriented to the career paths offered by the seven instructional programs in the college. This program’s objectives are to initiate great career opportunities for the students and increase the number of students declaring an interest in the College of Agricultural, Family and Consumer Sciences.

### Criteria:
High school students completing the 11th grade—minimum GPA 2.5; Spring 2013 graduating seniors—ACT (SAT equivalent) composite score of 20 and above, or high school GPA of 2.5 or greater, or rank in the top 50% of high school graduating class and require no more than one remedial course. Currently enrolled Southern University students must be in good standing with the university and have a minimum GPA of 2.5. All applicants must be interested in agricultural sciences, consumer sciences, business or science.

### Cost:
There is no cost to the student.

April 29, 2013
COOK LIKE A CHEF AT S.U. FAMILY and CONSUMER SCIENCES SUMMER CAMP

Duration: Six Weeks: June 3-July 12, 2013  8:00 a.m. to 4:00 p.m. (Two Components)*

Description: This program is designed to provide students and their parents learning experiences that will enhance their knowledge, awareness and attitudes regarding the benefits of healthy cooking, eating and physical activity. The camp includes Monday-Friday daily sessions for students and weekly sessions for parents. The camp consists of classes that focus on basic food preparation techniques, nutrition education and factors that influence eating behavior, a variety of physical activities, cooking demonstrations by local chefs, and field trips. The program’s objective is to evaluate the impact of the summer camp on promoting healthy eating and physical activity lifestyles among families; thus, reducing childhood obesity in the Southern University community.

Criteria: Students completing the 4th-8th grades spring 2012. One parent or guardian of the student attending the camp must attend the weekly Parents’ Night, one-hour class. LIMITED SPACE AVAILABLE.

Cost: There is no cost to the student. Stipends will be awarded to students who have excellent attendance.

Deadline: May 1, 2013
The Garrett A. Morgan Summer Business Institute (GAM SBI) is a YOUTH ENTREPRENEURSHIP and SUMMER ENRICHMENT PROGRAM, offering non-stop activity in an environment that’s fun, safe and nurturing for your loved ones during their Summer Break. The summer camp will provide academic enrichment, physical fitness, great field trips, character education, entrepreneurship projects, and so much more!!!

In addition to offering core academic enrichment, the program guides youth and teens in the process of starting a real business through hands-on real world business start up activities. Students discover interests, talents and entrepreneurial abilities while developing business skills. We strive to provide programming that will inspire-EXCELLENCE!

The camp is designed to empower students entering the 4th-10th and prepare them for a life of excellence—personally and academically. Middle/High School students must have a cumulative 2.2 GPA. The Garrett A. Morgan Summer Business Institute’s primary focus is to provide a quality program for all participants; therefore, a zero tolerance discipline policy has been adopted. Dress Code required.

**Cost:**
- Registration: $40.00 non-refundable
- Camp Institute Fee: $400.00
- Extended Day: $60.00

**Early Bird Discounts:** End April 30, 2013.

Payment methods accepted: Money Orders and Credit Cards

ExxonMobil Bernard Harris Summer Science Camp (EMBHSSC)
“Planet Earth in Crisis: Creating Sustainable Energy Resources”

**Duration:** Two Weeks: June 9 – 21, 2013

**Description:** EMBHSSC is a two-week, academic, residential camp that emphasizes increasing students’ mathematics and science knowledge and skills while introducing them to college life and stimulating their interest in science and engineering as potential career paths. The camp promotes science, technology, engineering and mathematics (STEM) education and supports historically underserved and underrepresented populations with limited opportunities. Each day, campers will attend classes that include problem solving, research, critical thinking and communication skills incorporated with biology, chemistry, physics, environmental sciences, earth sciences, engineering, technology, design concepts, and field excursions. Certified secondary teachers and university faculty will teach the classes. The camp will be held on the campus of Southern University and A & M College. Students will be housed in a dormitory on the university’s campus. Camp participants will be selected from the greater Baton Rouge Metropolitan area and surrounding parishes.

**Criteria:** Students entering 6th, 7th, or 8th grade in the fall of 2013, have an interest in science and mathematics, have at least a B average in science and mathematics courses, and achieve Basic or above on the state’s standardized science and mathematics tests are eligible to apply. Immediate family members of the university staff, EMBHSSC camp staff and ExxonMobil employees are not eligible.

**Cost:** There is no cost to the student.

Students will be provided lunch at Southern University Laboratory School. Applications can be found at [http://www.sea-summer.com](http://www.sea-summer.com)

*SEA is limited to enrolling 100 students per summer. All applications will be accepted on a first-come, first-served basis.*
Summer Bridge Institute (SBI) at the Timbuktu Academy

Duration: Eight Weeks (This program follows the University calendar.) Dates: June 3, 2013 – July 26, 2013

Orientation: Monday, June 3, 2013 (Mandatory for student participation.)

Description: SBI is an early college enrollment and research program aimed at recruiting top high school graduates at Southern University and A&M College. Priority is given to those majoring in physics and in mathematics. A minimum of 7-8 hours of college course hours, depending on research schedule, is required. Participation in a weekly research and enhancement seminar is required. The internalization of the locus of control is one of the aims of SBI. Study hall for three (3) hours per day, Monday to Friday, is also mandatory. SBI is funded in part by the Department of Navy, Office of Naval Research (ONR), and others. The enrollment for SBI, per summer, is typically 20 scholars.

Criteria: Successful applicants must earn the high school diploma by June of 2013; have a minimum GPA of 3.0/4.0, and a minimum ACT score of 21. Participants must major in a STEM (science, technology, engineering, and mathematics) discipline.

Cost: Tuition and fees, and books will be paid by the Timbuktu Academy and the Louis Stokes Louisiana Alliance for Minority Participation (LS-LAMP) funding agencies. For the summer of 2013, SBI is a non-residential program.

E-mail: Bagayoko@aol.com

Other Notes: Applications can be found at http://www.phys.subr.edu/timbuktu.htm or by calling the Academy at 225-771-2730. Faxed applications will not be accepted.

Deadline: April 30, 2013

The Timbuktu Academy won the 2002 US Presidential Award for Excellence in Science, Mathematics, and Engineering Mentoring. The Academy and its Director won the 2007 Benjamin Banneker Legacy Award.
Getting Smarter at the Timbuktu Academy—GeSTA
Southern University and A&M College, Baton Rouge, LA 70813

Duration:
Orientation: Sunday, June 2, 2013 (Mandatory for student participant and at least one parent or guardian)

Description:
GeSTA is a four-week, non-residential program that engages students in hands-on and minds-on academic enrichment activities. The focus of the program is to strengthen the students’ academic skills. Recreational activities will also be made available. Special emphasis is placed on reading and the development of critical thinking skills.

Criteria:
Participants must be entering the 3rd, 4th or 5th grade in the fall of 2013.

Cost:
$600 (Enrollment of 20 students required to operate program for summer 2013).

Contact:

Other Notes:
Students will be provided lunch at Mayberry or Dunn Dining Hall and afternoon snacks. Applications can be found at http://www.phys.subr.edu/timbuktu.htm or by calling the Academy at (225) 771-2730. Program participation is limited to twenty (20) participants. Applications are evaluated on a first-come, first-served basis. Once program limits have been met, no other applications will be accepted. Incomplete applications will not be considered. (Faxed copies will not be accepted.)

Deadline:        April 30, 2013
## Southern University Summer Transportation and Energy Institute (STEI)

**Duration:** June 3 - 28, 2013

**Website:** [www.transpoenergyinstitute.com](http://www.transpoenergyinstitute.com)

**Description:** The Summer Transportation and Energy Institute is a unique concept that is designed to create an awareness of opportunities which exist in the transportation and energy industry and to stimulate an interest in secondary elementary school students in Science, Technology, Engineering, and Mathematics (STEM). The institute consists of two programs: academic and enhancement. The academic program introduces participants to science issues, global conservation and land, air and water transportation. The curriculum includes problem-based learning projects, use of critical thinking skills, and hands-on projects. The enhancement program covers time management, study habits, test-taking skills, oral and written communication skills, and computer skills. Weekly fieldtrips are taken to enforce what is learned in the classroom. The participants will be engaged in a four-week intensive math, science, technical writing, and transportation and robotics program.

**Criteria:** STEI application criteria include the following:

- Interest in STEM disciplines
- Upcoming 9th or 10th grade
- Minimum 2.5 GPA (include an official high school transcript)
- Letter of Recommendation from current Math or Science Teacher
- Copy of LEAP, EXIT or End of Course Test Scores from School
- Most recent ACT scores for returning students (must be taken before June 4)
- 4-week commitment to Green Learning (student-parent-institute contract)
- **$150 Non-Refundable Registration Fee**

**Cost:** $150 non-refundable deposit per student (deadline May 3, 2013)

**Deadline:** The deadline to complete the online application at [www.transpoenergyinstitute.com](http://www.transpoenergyinstitute.com) is **April 27, 2013**. The deposit, transcript, scores and letter of recommendation **must be postmarked by May 3, 2013**.

**Note:** The Institute hours are 8 am-5 pm M-F.
UPWARD BOUND MATHEMATICS AND SCIENCE PROGRAM

Duration: Year-round and Summer Program        Start Date: TBA        Type: Non-Residential

Description: Classic Upward Bound provides fundamental support to participants in their preparation for college entrance. The program provides opportunities for participants to succeed in their pre-college performance and ultimately in their higher education pursuits. Classic Upward Bound serves: high school students from low-income families; high school students from families in which neither parent holds a bachelor's degree; and low-income, first-generation military veterans who are preparing to enter postsecondary education. The goal of Classic Upward Bound is to increase the rate at which participants complete secondary education and enroll in and graduate from institutions of postsecondary education.

Classic Upward Bound projects provide academic instruction in mathematics, laboratory sciences, composition, literature, and foreign languages. Tutoring, counseling, mentoring, cultural enrichment activities are also provided.

All Upward Bound projects MUST provide instruction in math, laboratory science, composition, literature, and foreign language.

Other Services: Instruction in reading, writing, study skills, and other subjects necessary for success in education beyond high school Academic, financial, or personal counseling Exposure to academic programs and cultural events Tutorial services Mentoring programs Information on postsecondary education preparation

Criteria: The Classic Upward Bound Program selects potential participants from the 9th and 10th grade. Selected students must attend one of Classic Upward Bound’s targeted schools and meet guidelines established by the United States Department of Education Federal TRIO Programs. Target high schools for this program are Baker High, Belaire High, and Broadmoor High.

Cost: No cost for academic services.

Deadline: Please contact Ms. Rhonda Robinson, Director, at (225) 771-3880 for further information.
UPWARD BOUND MATHEMATICS AND SCIENCE PROGRAM

Duration: Year-round and Summer Program  Start Date: TBA  Type: Non-Residential

**Description:** The Upward Bound Mathematics and Science Program is designed to strengthen the math and science skills of participating students. The goal of the program is to help students recognize and develop their potential to excel in the STEM disciplines and to encourage them to pursue postsecondary degrees in related areas.

Program services include: a summer program with intensive math and science training; year-round counseling and advisement; exposure to university faculty members who do research in mathematics and the sciences; computer training; and participant-conducted scientific research under the guidance of faculty members or graduate students, who are serving as mentors.

**Other Services:** Instruction in reading, writing, study skills, and other subjects necessary for success in education beyond high school academic, financial, or personal counseling. Exposure to academic programs and cultural events Tutorial services Mentoring programs Information on postsecondary education preparation

All Upward Bound projects MUST provide instruction in math, laboratory science, composition, literature, and foreign language.

**Criteria:** The Upward Bound Mathematics and Science Program selects potential participants from the 9th and 10th grade. **Selected students must attend one of the Upward Bound Mathematics and Science Program’s targeted schools and meet guidelines established by the United States Department of Education Federal TRIO Programs.** The target high schools for this program are Plaquemine High, Pointe Coupee Central, Scotlandville High, and Glen Oaks.

**Cost:** No cost for academic services.

**Deadline:** Please contact Mr. Earl Lee, Director, at (225) 771-3880 for further information.
ENGINEERING SUMMER INSTITUTE (ESI)

Duration: June 11-July 3, 2012

Description: The Engineering Summer Institute (ESI) seeks to expose students to career opportunities in Science, Technology, Engineering, and Mathematics (STEM) The goal of ESI is to broaden the access of students to these careers by exposing them to available options in an environment that facilitates intellectual exchange, academic enrichment, and fosters the learning, sharing, and growing processes. ESI offers the institute for high school students.

Criteria: Students promoted to grades 9 through 12 with a cumulative grade point average of at least a 3.0 on a 4.0 scale are eligible. They must submit an official transcript, standardized test scores, a letter of recommendation from a current math or science teacher, and a 250 word essay.

Cost: $400 non-refundable registration fee

Contact: Janifer B. Peters  
College of Engineering  
211 PBS Pinchback Hall  
E-mail: Janifer_Peters@subr.edu  
Voice: (225)771-3798  
Fax: (225)771-5721

Deadline: March 31 or until slots are filled.

Other Notes: The program hours are from 8:00a.m. to 5:00p.m. daily. Students will commute to campus daily. Fridays are reserved for field trips during ESI. Students will be provided lunch at the SU campus dining hall.
Education 1\textsuperscript{st} Academic and Sports Camp

Monday - Friday
8:00 am – 4:45 pm

Description: The Education 1\textsuperscript{st} Academic, Sports, and Fitness Program is a 6 week, non-residential summer camp, for rising 4\textsuperscript{th}-8th graders. The Education 1\textsuperscript{st} Academic, Sports, and Fitness Program will provide an educational enrichment experience for students in Reading, English, Mathematics, Science and Technology. This Program incorporates a hands-on, inquiry-based curriculum that engages students in laboratory and field-based learning. The program also prepares students for their next level mathematics and science courses, iLeap/LEAP/PARCC standardized testing, research skills, critical thinking, problem-solving, project design and presentation skills.

The sports portion of the camp will get the students involved in aerobic activities that promote good health and wellness. Students will participate in basketball, football, swimming, and bowling. Students will also have to option to take Swimming and/or Tennis Lessons at an additional fee.

Cost: $510 for the entire 6 week session. $25 Application Fee (non-refundable). A non-refundable deposit of $100 and the Application fee are due by May 31, 2013

Criteria: Students must be entering grades 4\textsuperscript{th} through 8\textsuperscript{th} for the 2013-2014 school year.
