

Southern University Student Health Center

The Student Health Center offers full primary care services to all currently registered students. Students have the option of calling to schedule an in person appointment or a virtual/telehealth appointment.

Covid-19 protocol remains in effect. All students must wear a mask to enter the clinic and only students receiving services can wait in the clinic or lobby areas. Covid-19 testing is available daily. Covid-19 vaccines are available weekly by appointment. If you test positive for Covid-19 or have been exposed to someone who has tested positive, complete the report form at <http://www.subr.edu/form/studentcovid19form>

Students may email or call during business hours to communicate with SHC staff. Appointments are strongly encouraged to avoid longer wait times.
