AT&T mobile technology center invites you inside

AT&T Technology is asking you to visit its one-of-a-kind campus-to-community technology and education fair on Saturday, Jan. 23, from 10 a.m. – 6 p.m., at the Felton G. Clark Activity Center on Southern University's campus.

It's the huge orange 18-wheeler parked in the parking lot of the Activity Center.

AT&T's 53-foot walk-through interactive mobile facility will allow you to immerse yourself in cutting-edge wireless technology for mobile phones, Internet and television applications. You will also be able to use the technology and there will be student-teachers on hand to show you practical ways to use the technology to enhance your life.

AT&T recognizes that education is the key to unleashing new levels of personal, scholastic and professional potential in an increasingly tech-savvy world. Its mobile facility annually tours around the country visiting collegiate sporting events, fairs and festivals.

See all the new AT&T technology. The tour is free.
